

LOVISH SHARMA

Full Stack Engineer

+91 9779898119 • slovish11sharma@gmail.com • [Linkedin](#) • [Portfolio](#) • Bangalore

Summary

Full-Stack Developer with strong experience in building scalable, high-performance web applications using Vue.js, Next.js, .NET, Node.js, Express, SQL Server, PostgreSQL, and MongoDB. Skilled in architecting scalable RESTful APIs, developing interactive, data-driven frontends, and optimizing backend systems for performance and maintainability. Proven ability to deliver end-to-end product solutions — from ideation to deployment — including enhancing search accuracy and developing data-driven tools that improve business efficiency and user engagement.

Experience

Microchip Technology India Pvt. Ltd Bangalore, India
Software Engineer - I 07/2024 - Present

- Enhanced site search functionality by integrating Lucidworks Fusion, .NET APIs, and SQL Server, resulting in a 22% improvement in search relevancy and significant reduction in null results.
- Built and maintained multiple admin applications leveraging Vue.js, .NET, MongoDB, and SQL Server to streamline product data management across categories, improving scalability and reducing manual operational overhead.
- Ideated, architected, and developed TreeLink, a full-stack Vue.js + .NET application that enables creation and visualization of hierarchical product category structures in a tree-like interface, enhancing product organization and discoverability.

Microchip Technology India Pvt. Ltd Bangalore, India
Software Engineer Intern 01/2024 - 07/2024

- Developed PowerShell automation scripts to streamline and automate data insertion processes, significantly reducing manual effort.
- Built a search analytics dashboard to track and visualize key performance metrics, providing actionable insights into search trends.
- Resolved multiple bugs and performance issues across frontend and backend modules, enhancing application stability, usability, and load times.

Education

Chandigarh University Mohali, Punjab
Bachelor Of Engineering in Computer Science | CGPA : 8.35 2020 - 2024

R.S. Model Senior Secondary School Ludhiana, Punjab
Intermediate | Percentage: 96.66 2018 - 2020

Skills

Frontend: Vue.js • Next.js • React.js • JavaScript • HTML • CSS • Bootstrap • Material UI

Backend/Runtime: .NET Framework • Node.js • Express.js • Java

Databases: SQL Server • PostgreSQL • MongoDB

Tools & DevOps: Git • GitHub • PowerShell

Concepts: Data Structures • Object-Oriented Programming

Projects

SoundSwap

- Developed SoundSwap, a full-stack React.js and Node.js application enabling seamless conversion of Spotify playlists to YouTube Music, integrating Spotify and Google APIs for real-time synchronization.
- Implemented secure OAuth authentication for cross-platform user login and data access, ensuring privacy compliance and a frictionless user experience.
- Engineered backend APIs using Express and MongoDB for efficient playlist storage, track mapping, and metadata retrieval, while styling the frontend with Tailwind CSS for a clean, responsive UI.

Invixy

- Developed Invixy, a SaaS invoice management platform built with Next.js, Prisma, and PostgreSQL, supporting multi-country tax systems (India, Canada, US) with dynamic tax logic.
- Implemented secure authentication and role-based access control using NextAuth.js, enabling owners, accountants, and employees to manage invoices, clients, and products through dedicated dashboards.
